

# STALWART IS

ANTI-RAM BARRIER WITH HIGH SECURITY FENCE

## THE PREFERRED SECURITY FENCE & BARRIER SOLUTION

The Stalwart IS (Impasse Security) system integrates the design elements of a high security fence with an anti-ram barrier. Ameristar Fence Products continues to develop new products to meet the rising demand for protecting and securing at-risk facilities.

### IMPASSABLE

Stalwart IS unites the strongest security fence available with the most widely used anti-ram perimeter barrier.

### INTIMIDATING

The appearance of Stalwart IS is a great visual deterrent that delivers strength and fortitude for keeping any assailant from easily breaching the perimeter.

### INTEGRATED

The unique design of the Stalwart IS framework enables the perimeter barrier system to become a platform for multiple security components.

We take great pride in manufacturing "Made in the USA" products. Ameristar is located in Tulsa, Oklahoma and is American owned and operated.

#### *Applications:*

- Military Sites
- Petroleum & Chemical Facilities
- Power Plants & Substations
- Government Facilities
- Airports
- Ports of Entry
- Data Centers
- Water Treatment & Storage

Covered by or for use with one or more of the following U.S. patents: 6,874,767, 7,188,826, 7,651,073, 7,441,751, 7,461,833, 7,475,868, D566292, D572374, D573270

# STALWART IS

## ANTI-RAM BARRIER WITH HIGH SECURITY FENCE

### DESIGN

The Stalwart IS system is manufactured of high-tensile steel and is pre-galvanized inside and out for superior corrosion protection. Each component is crafted to encourage an anti-climb and anti-cut perimeter barrier providing the highest level of delay and visual deterrent.

### RATINGS

Stalwart IS anti-ram rating designations

- M50 (K12)
- M40 (K8)
- M30 (K4)
- PU60
- PU50

### COATING & WARRANTY

Stalwart IS is coated using Ameristar's PermaCoat process; this dual-coat finish yields the best results for durability and weathering in the fence industry. Ameristar has over 25 years of experience in coatings, granting Stalwart IS systems a 15 year warranty.

Stalwart IS is produced using up to 96% post-industrial recycled steel.

### DESIGNATIONS

Stalwart IS has multiple anti-ram ratings engineered and tested to ASTM F2656 standards. Ameristar offers several rating options so that each site can be designed for the appropriate stand-off distance from the asset.

### SECURITY PLATFORM

Stalwart IS framework is a raceway for wiring, conduits, and/or security cabling required around the perimeter of a project. This integrated design eliminates the need for costly trenching and boring becoming a value added solution for perimeter security upgrades.

*Stalwart IS framework is a platform for security components:*

*Communication & Video cables  
IDS / Fiber Optic Cables  
Access Control Wiring  
Conduits  
Anti-ram Cabling*

### STYLES

*Also available in Impasse Anti-Scale pale spacing - 1.5" airspace*

Item No. 9807 / Effective: 10/2011
