CAPPED CELLULAR PVC FENCING  
By ENDURIS

# Endwood™ Fence Nails It.

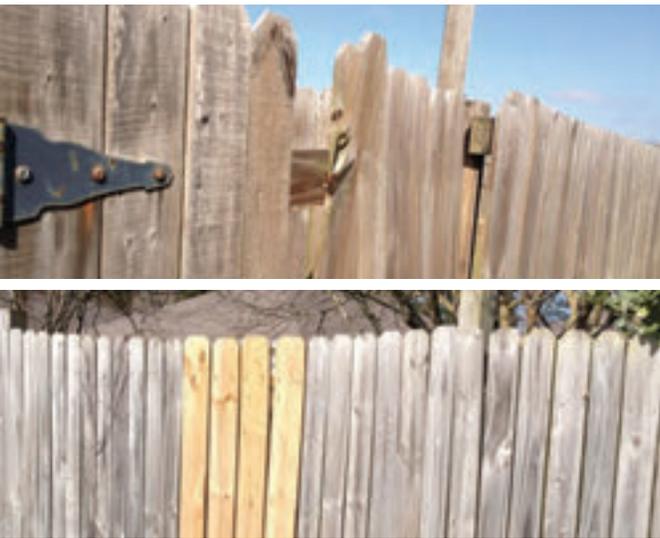

Endwood™, capped cellular PVC fencing, is much different than the vinyl PVC fencing you may be familiar with. It looks and feels just like real wood, capturing all of the great things people love about wood - A rich hand-stained appearance with rough sawn texture and wood grain patterns, yet without all of the headaches that come with real wood including fading, staining, and costly maintenance.

**Endwood employs our exclusive HardCover™ Capstock, a higher performance outer surface delivering unmatched durability and ultra-low maintenance.**

Our exclusive Hardcover Capstock surface, found only on Endwood Fence, preserves the color of the fence and provides superior stain resistance. In fact, Endwood Fence includes an industry first stain and fade resistant warranty for 30 years. You can't find that on wood!

A patent-pending Stabilizing Rail System has been engineered to provide ultimate durability and strength. The rails are reinforced internally with a 1" galvanized steel pipe that stabilizes the fence, reducing movement normally caused by picket expansion, and decreasing the tendency to sag. The Endwood Fence core, cellular PVC with a uniform closed cell structure, provides superior fastener holding strength as compared to the same fasteners used in wood. There is no risk of warping, cracking, rotting, and splintering that commonly occurs with wood as moisture cannot penetrate Endwood's advanced core.

## Wood's beauty ends...

Weather causes many problems with wood over a short period of time. The rich appearance and natural grain that is initially so attractive on a new wood fence will not endure. The sun bleaches out the color, leaving it pale and grey. Fence boards that were once smooth and straight start to warp, crack, rot, splinter and come loose from the rails. What once appeared strong and beautiful becomes fragile, dull and weathered even with time consuming and costly annual maintenance. Endwood Fence is engineered to be impervious to these issues. Our exclusive Hardcover Capstock and cellular PVC core is uniquely suited for exceptional performance when faced with the elements, which is why Endwood Fence is quickly becoming the choice for many commercial, HOA and homeowner decision makers.

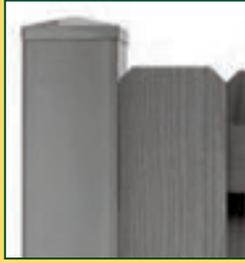

...Endwood's beauty endures.

# Endwood Fence components offer flexibility for different fence styles and post options.

4" x 4" Post Sleeve

5" x 5" Routed Post

## Standard Post Installation

4" x 4" post sleeve (designed to slide over a 4" x 4" structural wood post) and a 5" x 5" routed structural post, both with color-matched external pyramid caps.

## PostMaster® System

Endwood also allows the flexibility to use metal post options. The patented PostMaster® steel post for Endwood Fence is engineered to provide you with the strength of steel which can withstand high winds and will never rot or warp.

PostMaster®

PostMaster® Concealed

## Endwood Fence components are available as separate pickets, rails, posts and gate frames which are job-site assembled, allowing for complete installation and design flexibility.

6' Dog-Ear and Straight Edge Pickets: nominal 7/16" x 5 1/2" x 70"

8' Straight Edge Pickets: nominal 7/16" x 5 1/2" x 96"

Rails: 1 5/8" x 2 3/4" x 96"

1 5/8" x 3 1/2" x 96"

Top Rail Cap (California Style): 1" x 5 1/2" x 192"

Post Caps: 4" x 4" & 5" x 5" external pyramid

Square Gate Frame options (nominal)\*:

Actual Gate: 39 1/4" or 44 3/4"

Post to post opening: 40 3/4" or 46 1/4"

\*For use with D&D hardware. Check other manufacturers' specifications.

Hinges, Latch, and Gate Hardware options available

Hardware & brackets: Stainless steel screws and powder coated steel brackets

California Style Picket

Straight Edge Picket

Shadowbox Picket

Dog-Ear Picket

Sable

Slate

Sequoia

Endwood is available in Sable, Slate and Sequoia, and is the perfect complement to Endeck Cellular PVC Decking.

\*Colors shown are by the lithographic process and may vary slightly from actual product.

**ENDWOOD™**  
CAPPED CELLULAR PVC FENCING

# Just a few of the benefits Endwood Fence offers:

- Colors are fade resistant
- Stain resistant with easy cleaning
- 30-Year Fade & Stain Warranty
- Appearance and feel of real wood
- Contains no wood or organic fillers
- Up to 40% lighter than composite fencing
- No warping, cracking, or rotting
- Never splinters or invites termites
- Quick and easy installation
- Ultra-low maintenance
- Sections that span 8'
- Superior fastener holding strength 3 times greater than wood

**FADE-RESISTANT • STAIN-RESISTANT • ULTRA-LOW MAINTENANCE • NATURAL WOOD APPEARANCE • 30-YEAR FADE & STAIN WARRANTY**
